

Designed for offshore topside use in Ex Zone 2

Description:

The device is made to shut down the pneumatic air pressure if the electrical power shut down.

The device also functions as an electrical power cable. Equipped with pneumatic inlet & outlet, grounding cable, power cable and electrical plug and socket.

The device has a design which is quick and easy to operate.

Specification:

Pneumatic quick connections: Hansen series 5000

Pneumatic pressure: 0-10 bar

Electrical power consumptions: 50W

Grounding cable: 5 meters

Power cable: 35m 3x16A

Dimensions WxDxH: 515x515x1200mm

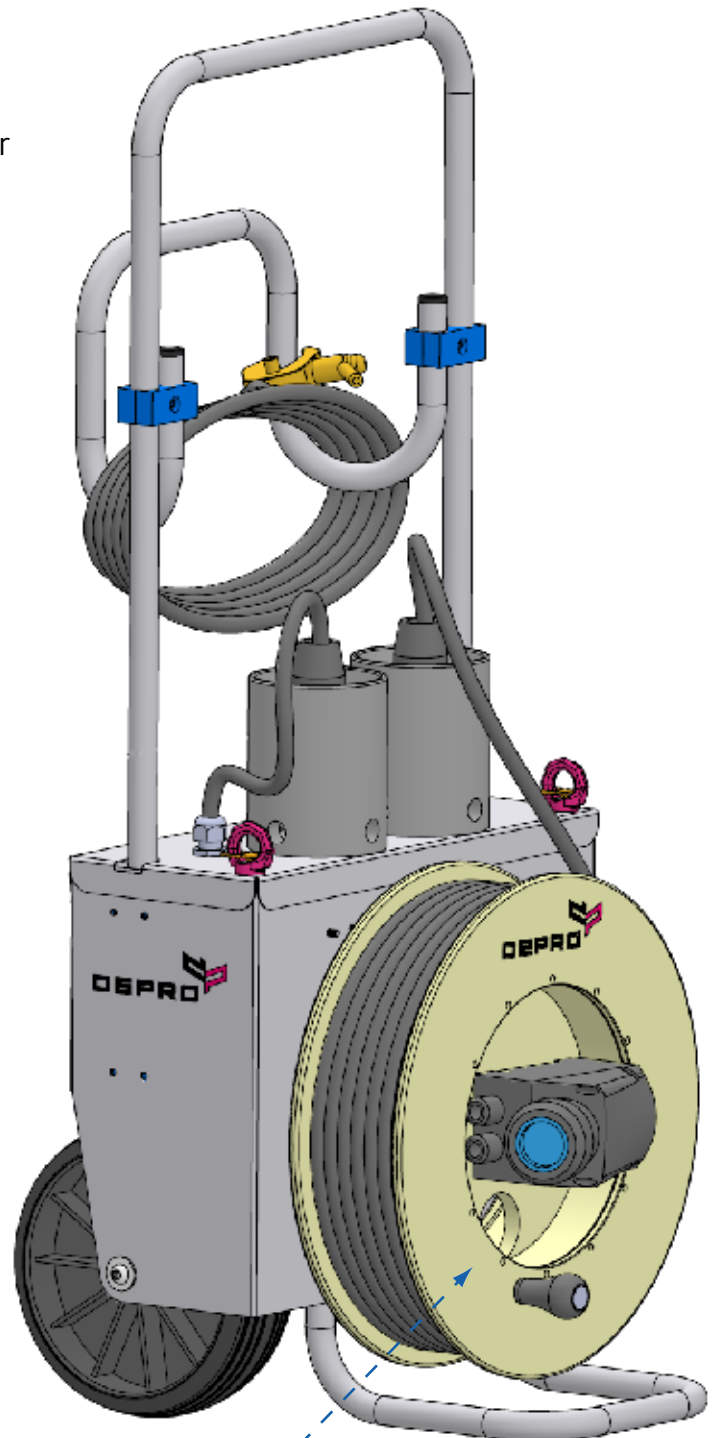

Weight: 45Kg

Material frame: AISI 316

Certified lifting eye: WLL 0,4 t

According to: Norsok Z-015 & Ex Zone 2

Depro drawing: DEP-GA-0389
