

#### **USED IN PROJECTS WORLDWIDE**

Depro AS is a well recognised EPC-partner and producer of products to the oil and gas industry worldwide. We pride ourselves on delivering outstanding quality and design.

#### **SPECIALLY DESIGNED PRODUCTS**

As a customer you can order products at Depro AS based on your drawings. We have great competence and experience in developing solutions for the challenges our customers face.

A close-up photograph of industrial machinery, likely a conveyor system or a material handling unit. The machinery is painted a bright yellow and features several rollers and a drive mechanism. A large, dark, cylindrical component, possibly a motor or a part of a conveyor, is visible in the foreground. The background is slightly blurred, showing more of the industrial environment.

MADE  
PRODUCTS**

# You have a challenge, we have the solution

- Many customers come to us when they have a special challenge to solve.
- Some have an urgent need of a product because of an unexpected event.
- Some already have drawings and ask us to produce the tool they have designed.
- Some just have a challenge and ask us to find a solution, or they have an idea of what the solution might look like.

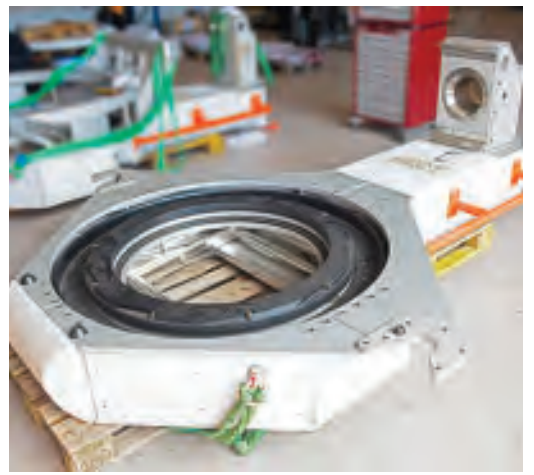

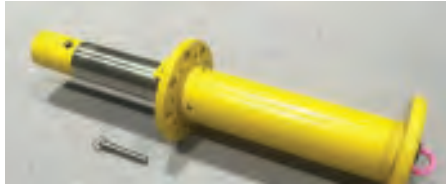

We have great competence and experience in developing solutions for the challenges our customers face during subsea operations.

Our engineers have an extensive design knowledge related to materials-technology, hydraulic, pneumatic, electrical and control systems.

## We are your trusted EPC-partner

Product examples shown: Seal replacement and cleaning tool, soft landing cylinder, test bench, test unit, subsea umbilical termination unit, subsea pipeline connection unit, subsea umbilical cutter and hatches to suction anchors.
